

## **SOCIAL BRIDGE NOTICE—Please Read**

Dear Friends, keep in mind these considerations as we resume our social bridge season:

We gather to play *social* bridge, moving from table to table, greeting or getting acquainted with other players. In order to do this safely, we observe all the protocols the IFC has set up. Play is limited to **seven** tables.

We play the Chicago style of bridge. Refresh your memory online or attend a Monday class if you need to.

Players must be fully immunized and provide proof of it. Hands need to be sanitized on entry and when leaving the table. Masks that cover nose and mouth must be worn properly at all times and high-quality masks are recommended. No food or drink, except water you bring, is permitted at tables. No use of IFC table covers or cushions is permitted. Please self-monitor and stay home if you do not feel well.

During this period of intense Covid infection, a group of four may choose to remain at their table throughout the afternoon. While we gather to be social, we also want to be flexible and allow members to make this choice. Please let a committee member at the entry table know so your group can be directed to a table that won't interrupt the flow of those who choose to move.
